

Important notice to these results.

These results need to be looked with view to the weather conditions on the day of the event. On the track we had endless false starts from wind on the transducer. At times we had no starts from water in the transducer. These are both situations we cannot control. Any times we have found to be incorrect we have reverted to a hand time for first place and taken the splits from the photo. If there is a missing wind reading then it comes back to the above conditions. Field wind readings while not in the results are available but in most cases are a higher value than the jump itself. In fact page after page of them with nothing under +3 or +4 and as high as +8. I have to thank the officials for there performance on the day and the athletes for braving the weather.

Henry Tudor
Athletics Southland.
